

1.2 ML

LIP STAR

Lip Filler

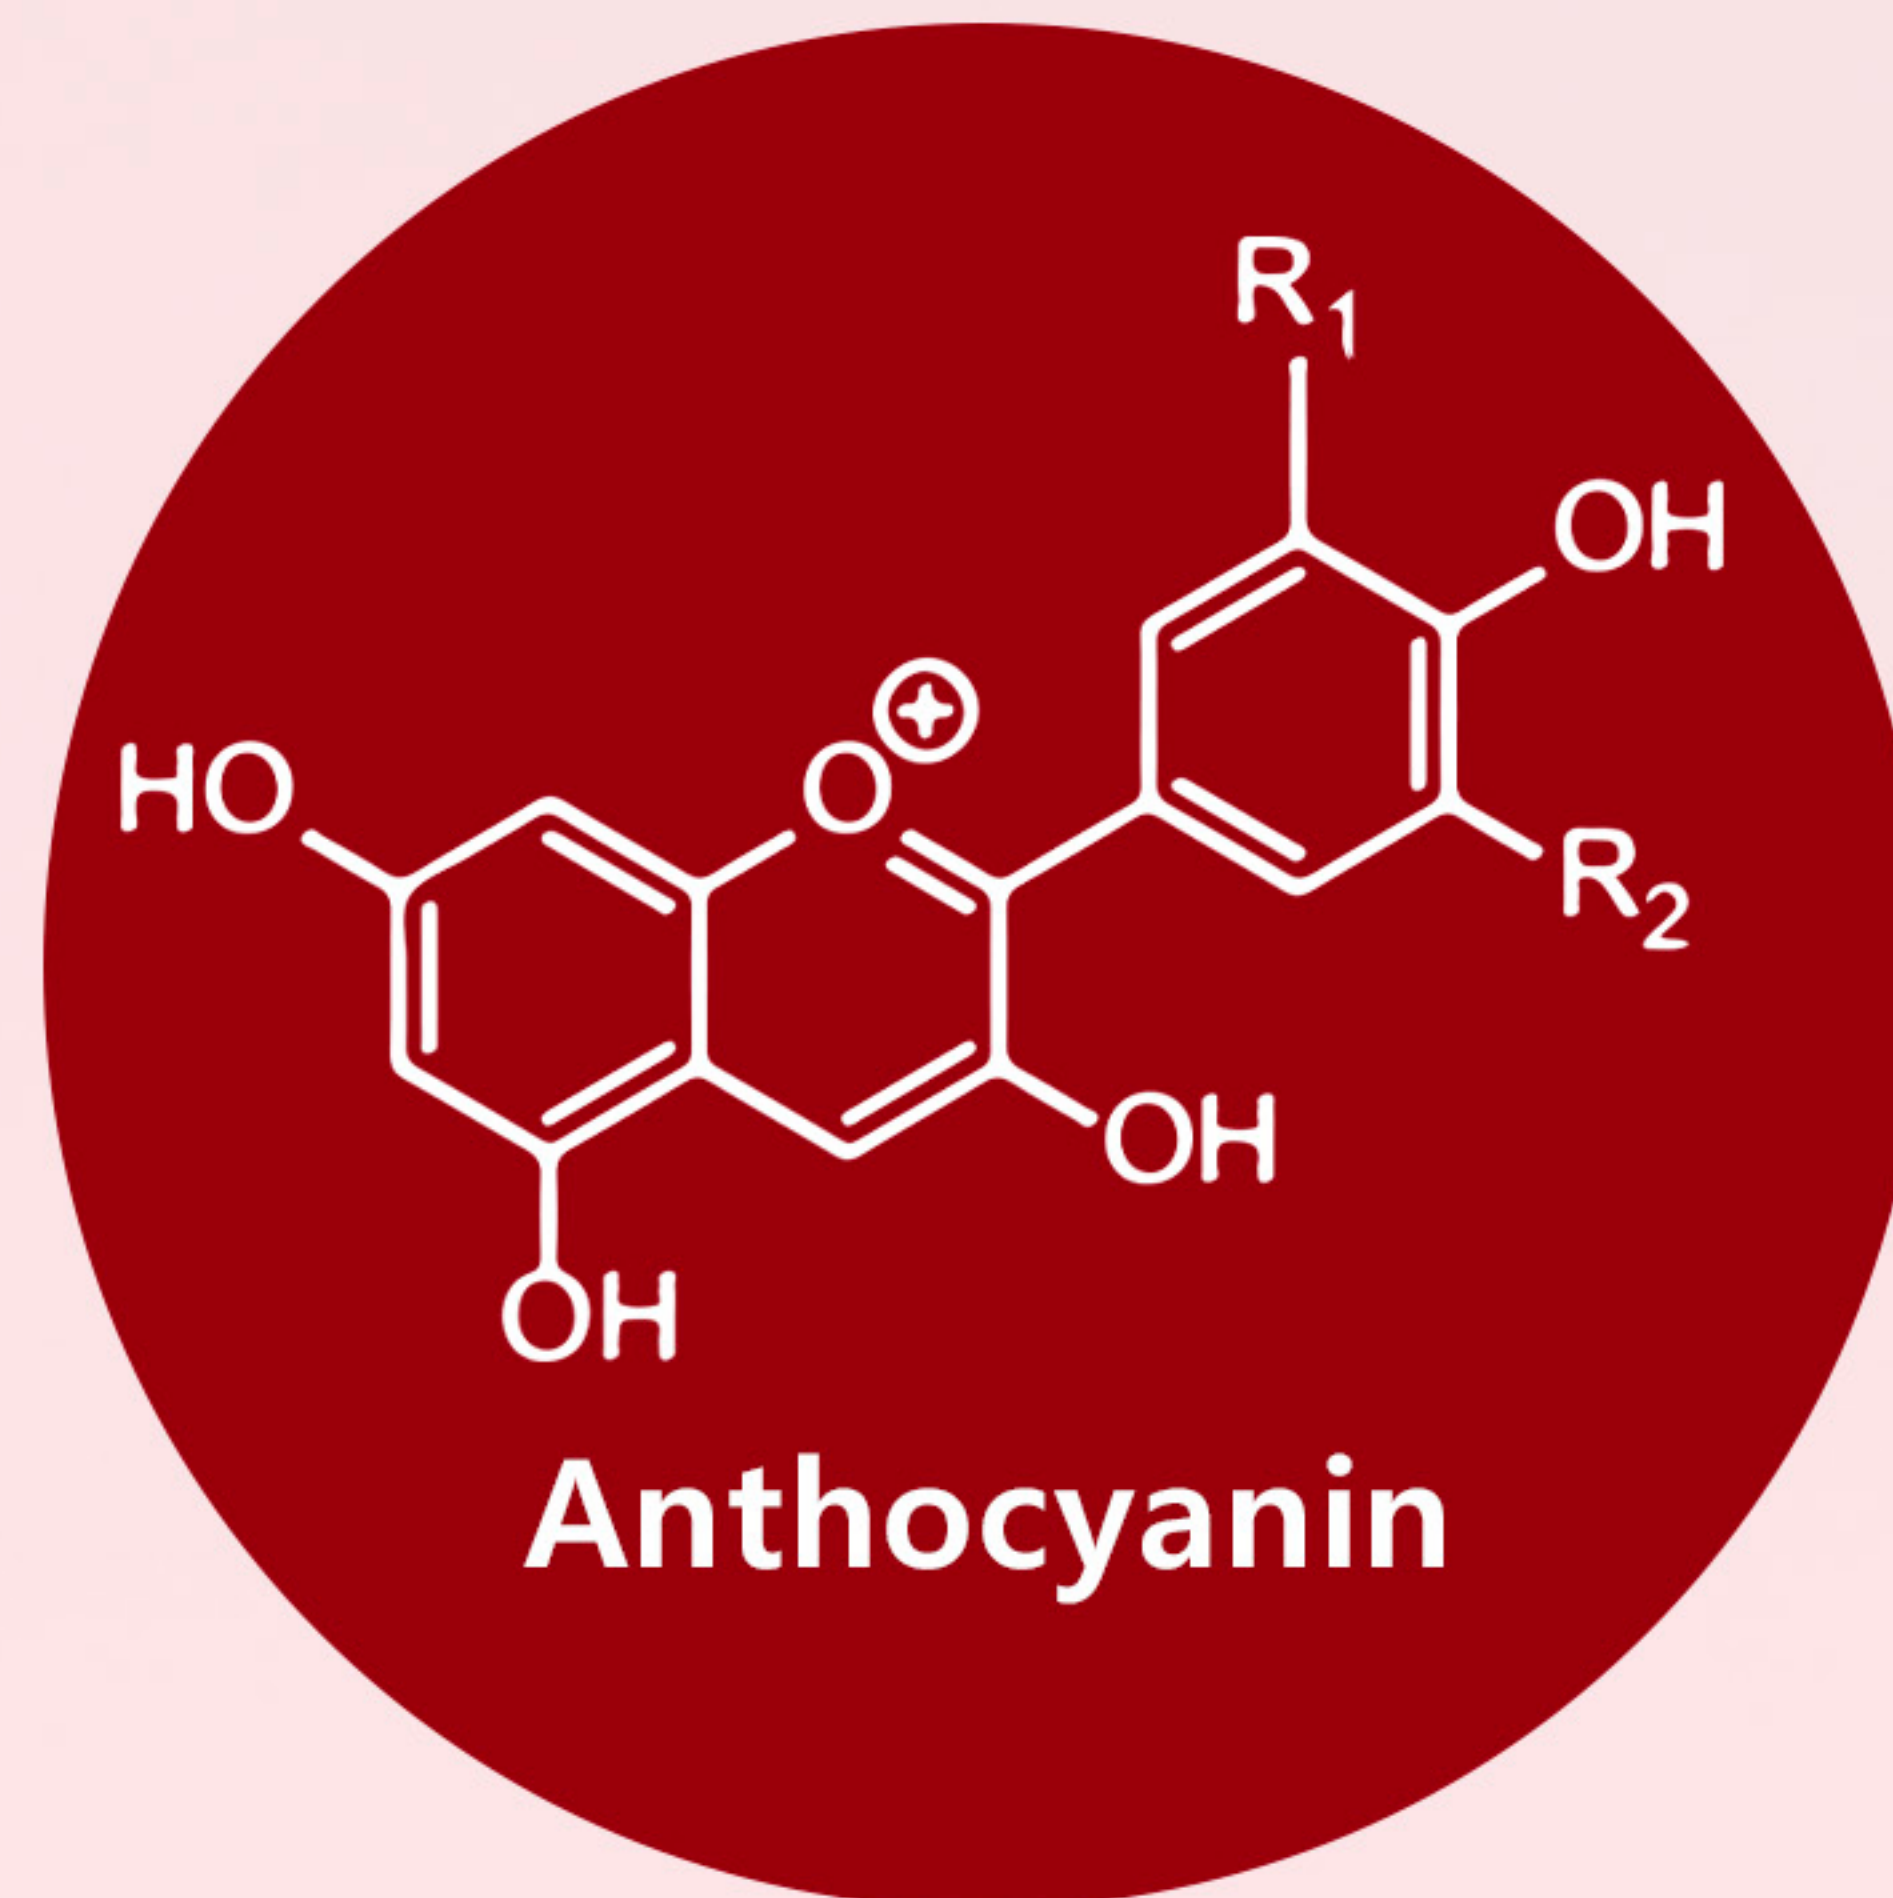

CROSS LINKED HA
ANTHOCYANIN

LIP STAR

Main Ingredients

Transform your lips with our state-of-the-art Lip Star Filler, meticulously formulated to combine the power of:

Hyaluronic Acid (HA) 24mg/ml

Function: Provides structural support and hydration.

Benefits: Long-lasting volume, improved lip texture, and deep moisturization.

Anthocyanin 1mg/ml

Function: Acts as an antioxidant and natural pigment.

Benefits: Protects against environmental damage, enhances natural lip color, and supports overall lip health.

Key Benefits:

Long-Lasting Volume

Deep Hydration

Enhanced Color

Antioxidant Protection

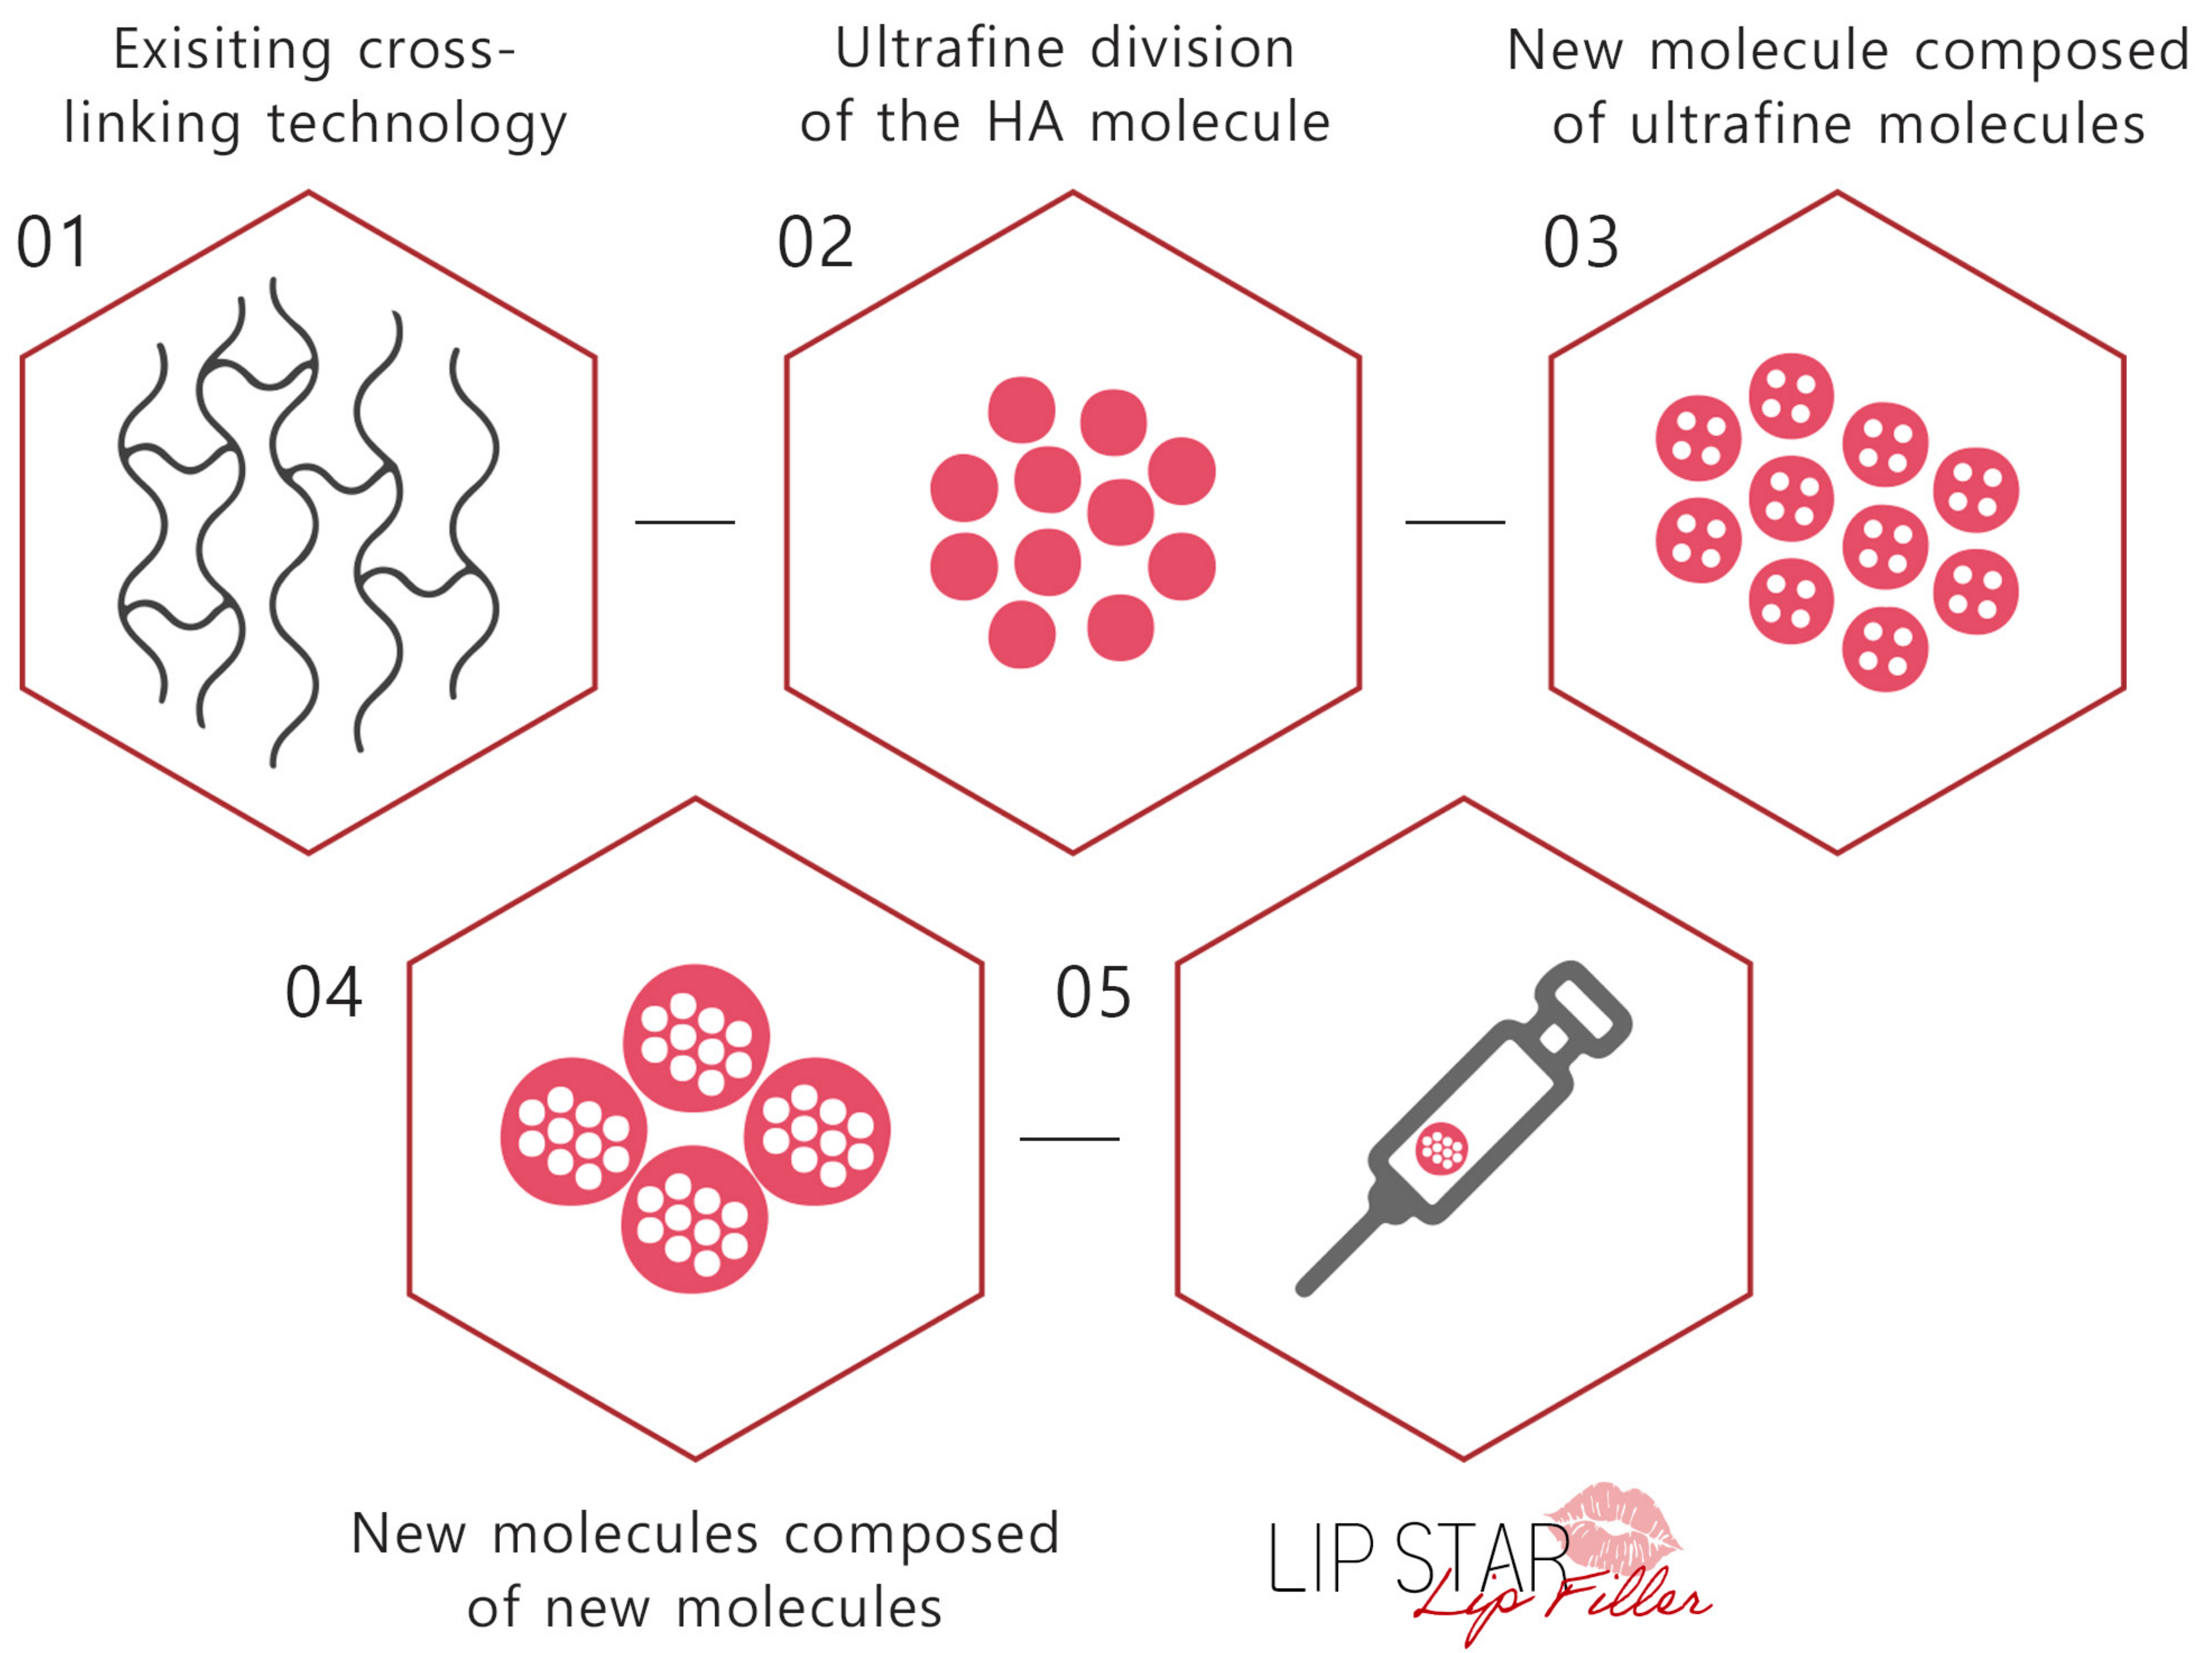

Natural-Looking Results

Long-Lasting Volume

The cross-linked HA in our Lip Filler is engineered for longevity. Unlike regular HA, the Multi-staged cross-linking process creates a more stable and durable gel that maintains its shape and volume for extended periods. This means fewer touch-ups and consistently fuller lips.

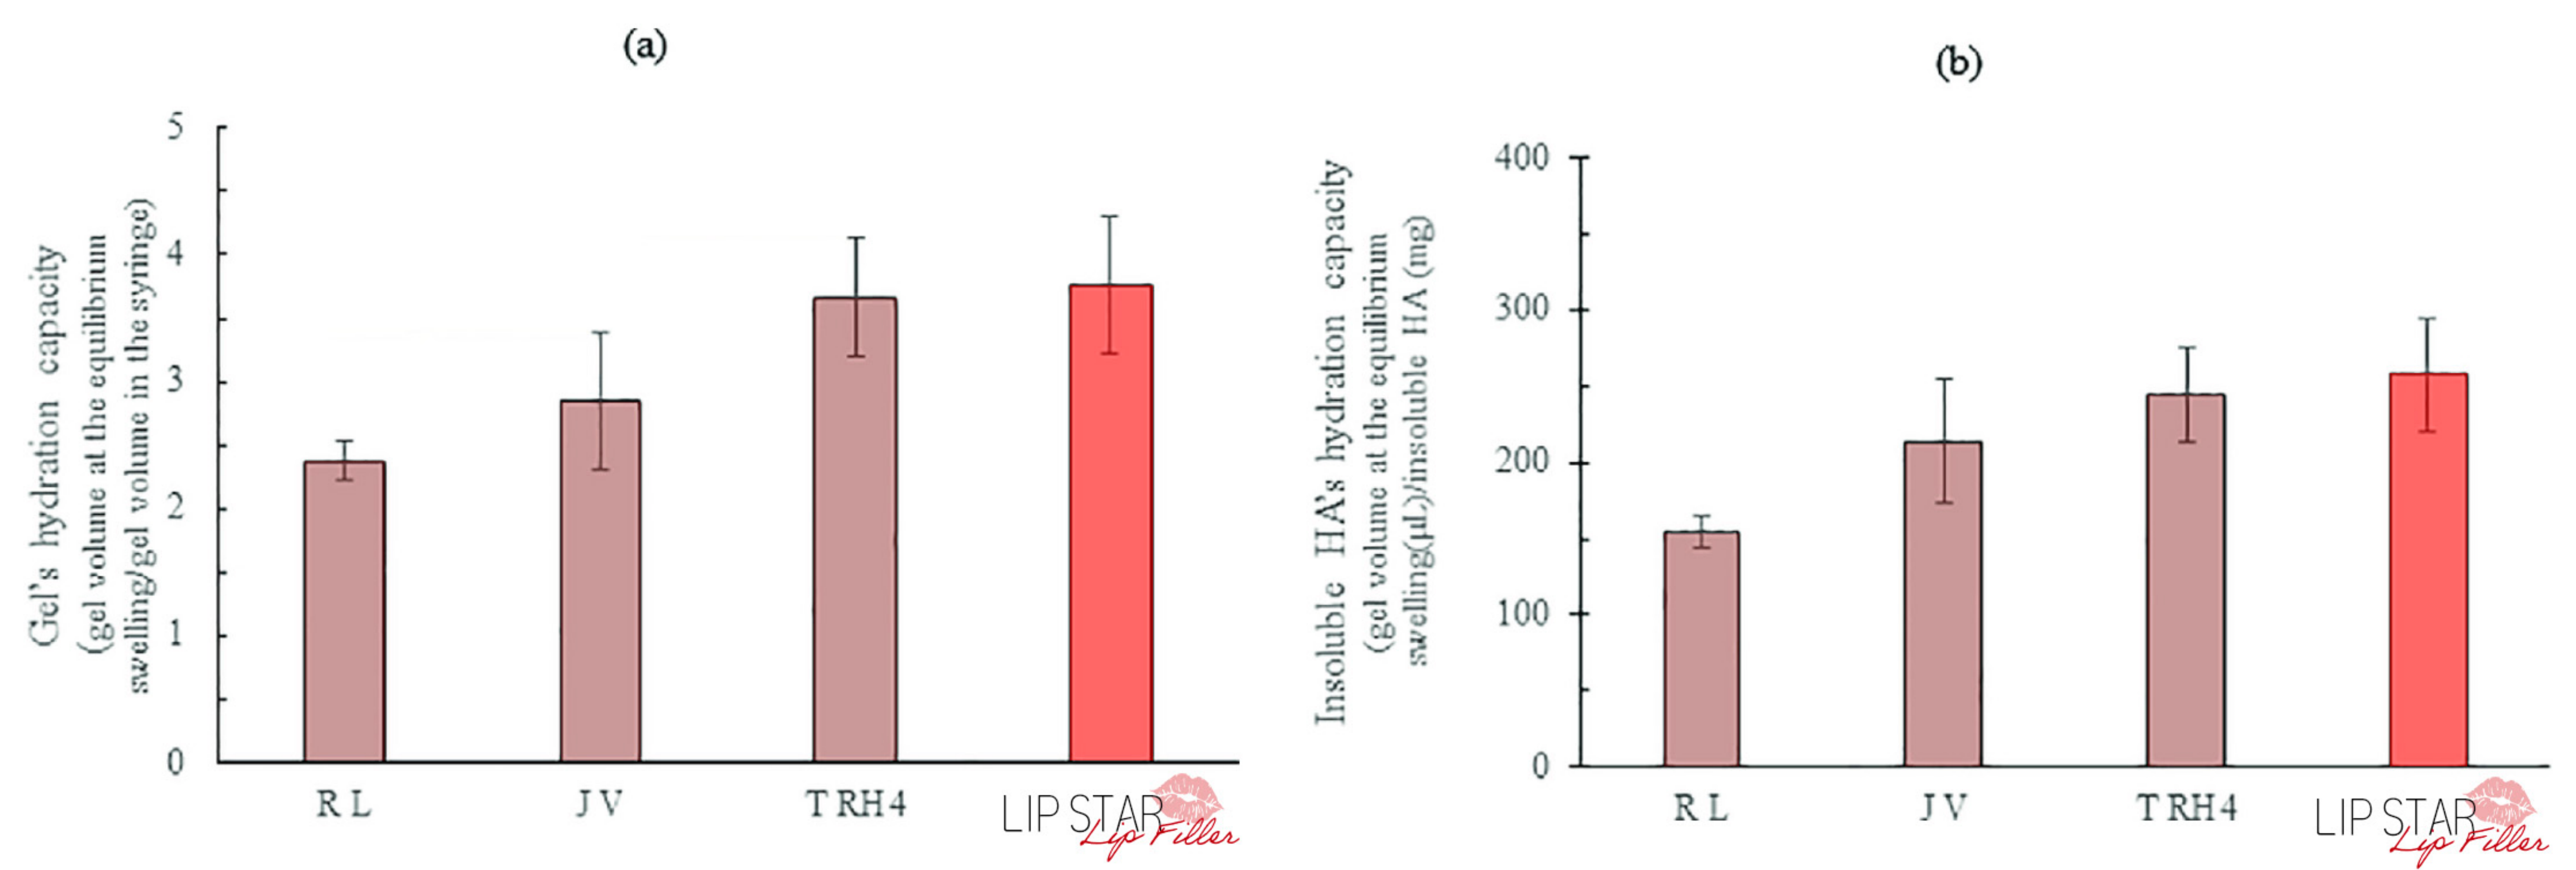

Lip Star

Deep Hydration

Hyaluronic Acid is renowned for its ability to attract and retain moisture. Each molecule can hold up to 1,000 times its weight in water, providing intense hydration to the lips. This not only keeps the lips looking smooth and supple but also prevents dryness and cracking.

LIP STAR

Antioxidant Protection&Enhanced Color

Antioxidant Protection

Anthocyanin, a natural antioxidant found in fruits and vegetables like blueberries and black rice, protects your lips from free radical damage caused by environmental factors such as UV radiation and pollution. This powerful antioxidant helps to maintain the integrity and health of the lip tissue.

Before

Natural Redness

After

Enhanced Color

Anthocyanin not only provides antioxidant benefits but also contributes to a subtle enhancement in lip color. This natural pigment gives your lips a beautiful, healthy hue, adding to the overall appeal of the treatment.

Indications:

Lip Star Filler is suitable for a wide range of individuals, including those who:

- Seek to enhance their lip volume and shape.
- Desire improved hydration and texture for their lips.
- Want a natural-looking lip enhancement with added antioxidant protection.
- Aim to reduce the appearance of fine lines around the mouth.
- Wish to restore youthful fullness to aging lips.
